

ENABLING CHEMICAL TECHNOLOGIES TO FOSTER INNOVATION AND SUSTAINABILITY IN PHARMACEUTICAL SCIENCES

April 29, 2025 - h 15:00
Room VIII rectorate

PROGRAM

15:00 - **Welcome**

15:10 - **Antimo Gioiello (University of Perugia)**
Introduction

15:15 - **Tati Fernández Ibáñez (University of Amsterdam)**
*S,O ligand-promoted Pd-catalysed non-directed C-H
functionalization of arenes*

15:50 - **Paolo Melchiorre (University of Bologna)**
*Photoexcitation of catalytic intermediates: A powerful tool for
asymmetric catalysis*

16:25 - **Francesco Enzo Molinari (University of Milan)**
*Intensifying and expanding biocatalytic processes:
Practical examples*

17:00 - **Break**

17:20 - **Daniela Ubiali (University of Pavia)**
Enzymatic cascades for nucleoside and nucleotide synthesis

17:55 - **Francesco Mutti (University of Amsterdam)**
*Biocatalytic cascades with novel enzymes for selective
and efficient organic synthesis*

18:30 - **Closing remarks**
